WHAT IS A CITATION?
A citation is a reference to any resource - book, journal article, eBook, Encyclopaedia entry, internet, etc - which has been used in your assessment. These will need to be listed at the end of your assessment as a bibliography. There are many styles of referencing but the majority of subjects taught at Newington use APA (American Psychological Association, 6th edition).

Author Surname, Initial. (Publication Year). Title of book as is on the cover. City of Publication, Country: Publisher.

WHAT IS A BIBLIOGRAPHY?

• A bibliography is a list of references at the end of your assignment.
• Only list the references you have used in your assessment.
• References are placed in alphabetical order by first author surname.
• References which run over two or more lines must have a hanging line indent applied after the first line.
• It should appear on the last page under the title References.
